

# 240FX Installation Accessories

## FX Hood

The FX Hood is a horizontal vent terminator with built-in freeze protection for an AquaStar 240FX model. It is **highly recommended for cold climate installations** for the AquaStar 240FX. See [FX Hood dimensions & Vent terminal clearance](#).

## 240 TSTAT

The 240 TSTAT is a remote thermostat designed to adjust the output temperature of the AquaStar 240FX model. 240 TSTAT also can provide error codes to help aid in any problems that may develop.

## 240 Brackets

These wall-hanging brackets are included with the unit and are for use when mounting the AquaStar 240FX heater on a wall.
