

INTRODUCING

Direct-Vent Heating System With Wood Fireplace Design Laser 60AT – 30,000 BTU/hr

FEATURES

- **WOOD FIREPLACE DESIGN**
Attractive, rustic, antique-finish cabinet with ceramic simulated logs suited for rustic or residential setting. Perfect for cottage/cabin, living room, family room, or any room.
- **CLEAN AND SAFE**
A force-flue pipe design for venting results in maximum efficiency, odorless and clean heating. The unit also features a safety shut-off in the event of a problem.
- **CONVENIENT, EASY TO USE**
This unit offers the most advanced technology with the economy of #1 fuel oil or kerosene heating. It features a simplified digital control panel that displays room temperature, temperature setting, time, and error codes.
- **COMFORTABLE**
The large circulation fan distributes clean heat quickly and evenly. The unit automatically regulates between low, medium and high burn modes. It turns itself off when the room temperature rises approx. 4 degrees above the desired set temperature.
- **AUTOMATIC TEMPERATURE SET-BACK OPERATION**
Features a 24-hour programmable set-back and an integrated thermostat controller to maintain the desired room temperature.
